

What drives Us.
Today and Tomorrow.

**Precision
beyond
Water.**

**Mission.
Vision.
Core Values.**

To be **the global benchmark** for metering, monitoring, control and disinfection solutions, leading to safer and environmentally responsible processes.

Mission.

We enable efficient and sustainable industrial processes through **innovative solutions** for chemical dosing and water treatment.

Innovation

We develop intelligent technology that anticipates customer and industry needs.

Customer Partnership

We build long-term customer partnerships and support their success with expertise and reliable solutions.

Sustainability

We contribute to the responsible use of water and chemicals and reduce environmental impact.

Responsibility & Integrity

We act with integrity, transparency and respect toward customers, employees, partners, and society.

Quality & Reliability

We deliver precise solutions for stable and dependable processes.

People & Collaboration

We believe people drive our success and we foster collaboration and continuous development.

Vision.

Core Values.
